

FINAL REPORT 2 0 1 0

SURVEY OF STATE FUNDING FOR PUBLIC TRANSPORTATION

FINAL REPORT 2 0 1 0

Survey of State Funding for Public Transportation

Characteristics of State Funding for Public Transportation

The following report provides a summary of state transit funding for 50 states and the District of Columbia (DC). Information includes funding sources, amounts, program, eligible uses and allocation, and per capita state transit funding. The report also includes an overview of the results of transit-related state and local ballot initiatives held in 2008. The report was prepared by Research and Innovative Technology Administration, Bureau of Transportation Statistics (BTS), Office of Survey Programs.

AASHTO would like to thank Tom Bolle and Ken Notis of BTS staff for their efforts that led to the development of this report. In addition, AASHTO also thanks the state department of transportation officials who responded to the survey.

The AASHTO Standing Committee on Public Transportation is pleased to release the *Survey of State Funding for Public Transportation*. The survey results reflect Fiscal Year 2008 data. This annual report provides a snapshot of state-by-state investment in public transportation from federal, state and local funding sources. A summary of recent transit-related state and local ballot initiatives as well as the numerous tables and charts enable the reader to understand how different funding and tax mechanisms are used in each state to support transit operations and capital projects.

AASHTO supports a vision of doubling transit ridership to more than 20 billion by 2030 and 50 billion by 2050. Our goals also include: improving public transportation capacity to meet mobility needs, doubling rural transit funding over the next six years, coordinating housing, land use and transportation policy to support transit-friendly development and using public transportation as a tool to accommodate increasing travel demand. Public transportation is essential to moving people in both urban and rural areas and is a critical part of the nation's multimodal transportation system. As our senior population continues to grow, more of our citizens are choosing to 'age in place' and we as state departments of transportation must provide public transportation as a mobility option.

The results you see in the *Survey of State Funding for Public Transportation* reflect this commitment. Our States and local governments are committing more than 50% of the funding for the nation's public transportation. Historical funding patterns demonstrate the important role that state departments of transportation fulfill in public transportation finance and administration. States spent approximately \$12.3 Billion on transit in FY 2008 which is an increase of \$4.8 Billion over the FY 2000 level of \$7.5 Billion.

The *Survey of State Funding for Public Transportation* is viewed by the public transportation industry, national associations, Federal and state governments as one of the most comprehensive resources on state involvement in public transportation. On behalf of the Standing Committee on Public Transportation, we would like to thank the AASHTO member departments for completing the survey, the United States Department of Transportation Bureau of Transportation Statistics for preparing this report and the American Public Transportation Association for co-sponsoring this undertaking.

We hope you find this report a useful reference as you continue to support public transportation in your state.

Jeffrey A. Parker Chair, AASHTO Standing Committee on Public Transportation Commissioner, Connecticut Department of Transportation

John C. Horsley Executive Director American Association of State Highway and Transportation Officials

1.0 Highlights of State Transit Funding – 2008

This report, the 28th compilation of information on state funding for public transportation, was prepared under the auspices of the American Association of State Highway and Transportation Officials (AASHTO) and the American Public Transit Association (APTA). It was prepared by the Bureau of Transportation Statistics, Office of Advanced Studies.

State Funding of Public Transit

Table 1-2 (on page 1-3) shows that the total amount of state funds programmed for public transit, which had continually increased since 1990, declined in 2008 from 2007 levels. Eighteen states and the District of Columbia increased their public transit funding by a total of over \$700 million over 2007 levels. The top four states account for almost 80 percent of the funding increase and include: Pennsylvania up \$284 million, New York up \$127 million, Minnesota up to \$102 million, and Maryland up \$95 million. The remaining 14 states increased transit funding by a total of over \$150 million.

Table 1-1. States with Increased Funding for Public Transportation

State	2007	2008	Increase	% Increase
Pennsylvania	\$860,963,000	\$1,145,567,000	\$284,604,000	33.06%
New York	\$2,887,985,000	\$3,015,441,656	\$127,456,656	4.41%
Minnesota	\$237,023,000	\$339,925,000	\$102,902,000	43.41%
Maryland	\$749,371,455	\$844,417,234	\$95,045,779	12.68%
Virginia	\$184,417,844	\$228,965,893	\$44,548,049	24.16%
New Jersey	\$1,008,129,998	\$1,035,472,354	\$27,342,356	2.71%
DC	\$250,868,928	\$272,724,274	\$21,855,346	8.71%
Illinois	\$498,900,000	\$519,300,000	\$20,400,000	4.09%
Delaware	\$72,962,500	\$86,232,800	\$13,270,300	18.19%
Indiana	\$42,694,683	\$55,733,074	\$13,038,391	30.54%
Wisconsin	\$119,134,447	\$125,179,500	\$6,045,053	5.07%
Tennessee	\$38,310,000	\$41,537,000	\$3,227,000	8.42%
New Hampshire	\$1,530,000	\$4,474,250	\$2,944,250	192.43%
Iowa	\$10,840,785	\$13,280,543	\$2,439,758	22.51%
Arizona	\$10,142,000	\$11,780,000	\$1,638,000	16.15%
West Virginia	\$2,523,342	\$3,023,342	\$500,000	19.81%
Wyoming	\$2,294,200	\$2,495,659	\$201,459	8.78%
Georgia	\$6,024,552	\$6,141,497	\$116,945	1.94%
South Dakota	\$750,000	\$770,000	\$20,000	2.67%

Total funding for public transportation decreased in 2008 by over \$900 million. Twenty-two of the 50 states showed a decline in funding from 2007 levels and 10 showed no change from 2007 funding levels, including the four states that do not fund public transit.

■ Comparing State and Federal Funding of Public Transit

In 2008, states provided \$12.3 billion in transit funding, while federal funds totaled \$13.1 billion. The six states with the largest funding amounts—California, New York, Massachusetts, , Pennsylvania, New Jersey, and Maryland—collectively allotted \$9.5 billion in state funding, while the remaining 39 allotted \$2.7 billion. About \$5.9 billion—close to half of all Federal funds spent on transit—went to these six states. Figure 1-1 shows the percentage of state and Federal funding for each state.

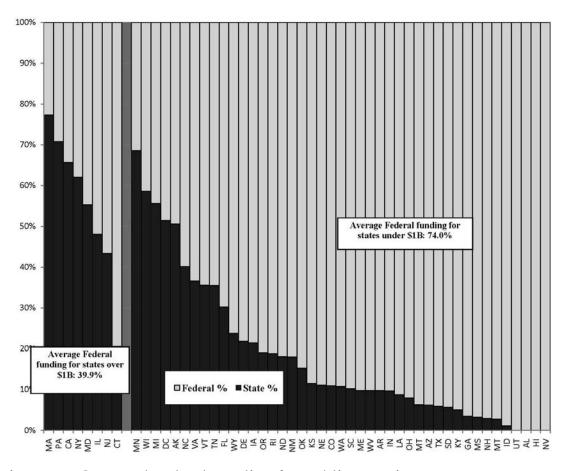

Figure 1-1. State and Federal Funding for Public Transit

It should be noted that only the 50 states and DC are included in the funding summaries of this report. United States territories were not included in the survey.

Note: Federal fund information provided by the Department of Transportation, Federal Transit Administration.

■ State Transit Programs Across the United States

In 2008, 50 states and the District of Columbia (DC) responded to the transit survey. Information from the 2008 survey is summarized followed by an overview of funding changes and historical comparisons for all programs who responded to the 2007 and 2008 survey (for purposes of this summary, DC will be included with the states).

Sources of State Funds (see Table 1-4)

The most utilized sources for transit funding were **general funds** (19 states), **gas taxes** (used by 16 states), **bond proceeds** (12 states), **registration/license/title fees** (9 states), **general sales taxes** (8 states), **motor vehicle/rental car sales taxes** (8 states), and **interest income** (5 states). Twenty-seven states reported that they used **other** sources for funding such as state highway funds, trust funds, miscellaneous revenues, fees, or taxes, lottery funds, documentary stamps, and other types of assessments. Six of these 29 states relied solely (100 percent of transit dollars) on these miscellaneous revenue sources.

Eligible Uses for State Transit Funding (see Table 1-5)

Of the 51 states who responded to the survey, four reported no state funding for transit. Of those programs providing state transit funding, 39 out of 47 (83 percent) reported specific funding amounts for capital expenditures; 36 out of 47 (77 percent) reported specific funding amounts for operating expenditures; 11 out of 47 (23 percent) reported funding amounts that could be used for either capital or operating expenditures, and 11 out of 47 (23 percent) reported funding for planning, training, studies, or other miscellaneous activities.

Of the total state funds expended for public transportation, \$6.890 billion (56 percent) were allocated for operating expenditures, \$2.853 billion (23 percent) were allocated for capital expenditures, \$93 million (1 percent) were allocated for either capital or operating, and \$2.431 billion (20 percent) were miscellaneous funding allocations. Figure 1-2 is a graphic depiction of the data contained in Table 1-5.

Table 1-4. Major Sources for Overall Transit Funding

State	Transit Funding 2007	General Fund	Gas Tax	Motor Vehicle/Rental Car Sales Tax	Registration/ License/Title Fees	Bond	General Sales Tax	Interest	Other	Other Description

st Denotes states that do not provide state funds for transit.

^{**} Kansas' total expenditures did not agree with the total derived from eligible uses

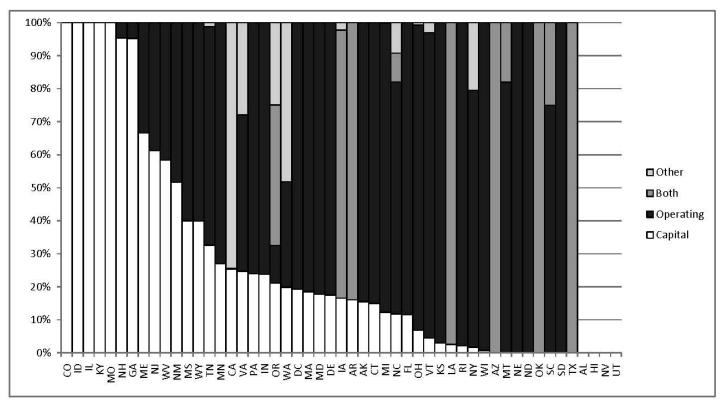

Figure 1-2. Eligible Uses for State Transit Funding

Types of State Transit Funding

States were asked to describe whether their transit funds were dedicated, non-dedicated or some other type of funding (see Table 1-6). Thirty-six states described the funding types for all of their transit dollars. For those 36 states, \$6.421 billion (74 percent) were dedicated funds compared to \$1.997 (20 percent) of non-dedicated funding. Three states indicated that some portion of their transit funding fell into the Other category, and described how those funds were allocated. An additional four states provided information on some of their funding but not all of it. Four of the 46 states did not provide information on the types of funding for state transit.

Methods of Distribution of Transit Funds

Twenty-five states described the distribution method for at least some of their funds as discretionary, 29 used formulas for some funds, 4 used a local pass-thru and 18 used some other method, usually legislated (see Table 1-7).

Of total funds reported, 19.2 percent was allocated by discretionary methods, 59.3 percent by formula, 2.5 percent by local pass through, and 19 percent by other methods.

^{*}States who do not fund transit.

Changes in State Transit Funding (see Table 1-8)

Because 50 state programs provided information for both the 2007 and 2008 studies, comparisons can be made relative to funding amounts for these two time periods. Changes in funding levels between FY 2007 and FY 2008 are shown using two measures: (1) percent change in *total* funding and (2) percent change in *per capita* funding. The former measure simply computes the difference in raw funding amounts reported over the two years as a percentage. The latter measure is more useful when making historical comparisons across states because it relates population increase to changes in funding levels over time and thereby "normalizes" the effect of varied population growth rates of individual states. Both measures are roughly similar in raw figures (for instance, a 17-percent decrease in reported *total* funding and a related 19-percent decrease in *per capita* funding), but they are not identical. Percent changes in *per capita* funding may either lag or exceed percent changes in *total* funding, thereby creating a different portrait of state funding activity.

Changes in overall state funding for participants in the most recent survey have shown a rather wide variance, ranging from a *total* funding increase of 192 percent for New Hampshire (corresponding to 191 percent in *per capita* funding) to no change in funding for seven states, to a 100 percent decrease in *total* funding (and related 100 percent *per capita* decrease) in Nevada.

The breakdown of reported changes in *total* funding between the previously surveyed states is as follows:

- A total of 20 states reported increased *total* funding for transit by a range of 1.9 percent (Georgia) to 192 percent (New Hampshire).
- One state—New Hampshire—reported an increase greater than 43 percent.
- Nine states Minnesota, Pennsylvania, Indiana, Virginia, Iowa, West Virginia, Delaware, Arizona, and Maryland reported increases between 12 and 43 percent.
- Ten states Wyoming, DC, Tennessee, Arkansas, Wisconsin, New York, Illinois, South Dakota, New Jersey, and Georgia reported increases between 1.9 and 8.8 percent.
- Idaho, Mississippi, Nebraska, North Dakota, Oklahoma, South Carolina, and Texas, reported no change in funding levels in FY 2008.
- Twelve states Michigan, Missouri, North Carolina, Rhode Island, Ohio, Kansas, Vermont, Alaska, Kentucky, Washington State, Massachusetts, and Florida reported decreases of less than 20 percent.
- Seven states California, Oregon, Montana, Maine, Connecticut, New Mexico, and Nevada reported decreases from 26 percent to 100 percent.

A summary of changes in reported *per capita* funding among these same states is noted below:

- Between FY 2007 and FY 2008, 21 states reported increases in per capita funding ranging from a 0.3 percent increase (Georgia) to a 191 percent increase (New Hampshire).
- One state New Hampshire reported an increase greater than 43 percent.
- Nine states Minnesota, Pennsylvania, Indiana, Virginia, Iowa, West Virginia, Delaware, Arizona, and Maryland—reported increases between 11 and 43 percent.
- Eleven states DC, Tennessee, Wyoming, Wisconsin, Arkansas, Illinois, New York, South Dakota, Michigan, New Jersey, and Georgia reported increases between 0.3 and 8.4 percent.
- Sixteen states North Dakota, Nebraska, Mississippi, Oklahoma, Texas, Idaho, South Carolina, Missouri, Rhode Island, Vermont, Ohio, Kansas, North Carolina, Alaska, Kentucky, and Washington State-reported decreases of less than 8 percent.
- Three states Massachusetts, Florida, and California reported decreases from 13 to 26 percent.
- Five states—Oregon, Montana, Maine, Connecticut, and New Mexico—reported decreases of 46 percent to 100 percent.

^{*}Denotes states that do not provide state funds for transit.

Source: The population statistics to derive per capita figures are published by the U.S. Census Bureau, "State Population Estimates: July 1, 2008, published in December 2008."

State and Per Capita Funding

A snapshot of all states surveyed in the FY 2008 effort, shown in Table 1-9, reveals that *total* transit funding by state varies widely across the nation, ranging from zero dollars in funding to \$3.015 billion. Four states — Alabama, Hawaii, Nevada, and Utah — do not fund transit at the state level. On the other hand, states such as California, New York, Minnesota, Massachusetts, Connecticut, Pennsylvania, Maryland, and New Jersey, among others, have made large state investments in transit ranging from \$844 million to \$3.015 billion.

Table 1-10 shows state funding ranked by *per capita* funding levels. Sixteen states reported per capita funding between \$20 and \$462, whereas the remaining 31 states reported from \$0.20 per capita to slightly less than \$11 per capita.

Idaho	1,527,506	\$312,000	\$0.43
Total	†	\$12,244,263,786	\$42.50

Note: For both Tables 1-9 and 1-10:

- Alabama, Hawaii, Nevada, and Utah did not fund transit.
- The DC per capita figure is artificially high. WMATA extends well beyond the District boundaries into Maryland and Virginia, and therefore serves a population much larger than that of the DC. Per capita figure is calculated only for District investment per resident population.

Source for both Tables 1-9 and 1-10: The population statistics to derive per capita figures are published by the U.S. Census Bureau, "State Population Estimates: July 1, 2008," published in December 2008.

2.0 State Transit Programs

Methodology

This section presents major details of FY 2008 funding programs for each of the 49 states who responded to the survey and the District of Columbia DOT.

Survey packets were sent to all 50 state DOTs and the District of Columbia DOT the week of August 24, 2009. Packets included the survey form with data from 2007 entered into the appropriate boxes and a cover letter from AASHTO and APTA. Through e-mail and telephone follow-ups, eventually 49 of 50 states (New Jersey did not respond) and the District of Columbia submitted their updated information and data collection was terminated in December 2009. A report of results was submitted to AASHTO in April 2010.

The following basic information was solicited from each state:

- Sources of funds. What state taxes or revenues are used to support transit?
- Nature of programs. What is the focus of discrete funding programs?
- Amounts of funding. What amounts are being contributed from which sources?
- Eligible uses of funds. For what purposes are funds provided?
- Types of Funding. What limitations are placed on the funds for example, limited to capital expenditures, operating expenditures, planning or other miscellaneous activities.
- Allocation mechanisms. What factors are used in allocating funds to what recipients?

Note: Per capita costs for each state were calculated using the U.S. Census State Population Data (NST-EST2009-01) for July 1, 2009, which was released in December 2009.

■ Alabama State Transit Funding: Major Features

The state does not provide funding for transit.

■ Alaska State Transit Funding: Major Features

- State transit funding for FY 2008 totaled \$86,814,875 or about \$126 per capita.
- The State of Alaska currently has 12 public transit systems and two additional systems starting in FY 2011.
- Due to the unique geography, large land mass, and extreme climate conditions of Alaska, the cost of transit infrastructure is high. Funding based on population alone does not meet the needs of this state. In the next reauthorization, we would like to see funding based on land area and population, comparable to FTA 5311, for all FTA funding programs.

(Alaska's fiscal year runs from July to June.)

Alaska State Transit Funding for Ferry Systems (see definition	on below)		
Please indicate in the boxes to the right, the TOTAL amount of STATE funds that were expended on ferry systems for capital and/or operating expenses	Capital	\$9,400,000	
during 2008. Please include all funds, even if they are already included under	Operating*	\$81,559,200	
another program or programs reported in this survey. These state figures will allow us to show the total amount of state dollars that are being expended on the	Other		
nation's ferry systems on a yearly basis. If your state does not expend funds on	TOTAL	\$90,959,200	
ferry systems, please check the box below. Thank you.	Explain "Other:"		
This state does not expend state funds on any ferry system	*Includes plann	ing	
Definition of Ferry System			

The geographic scope for ferry operations will include the 50 states and the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, and the remaining territories, commonwealths and other political units of the U.S. [1] In addition to ferry operators providing domestic service within the U.S. and its possessions, operators providing services from locations in the U.S. and its possessions to and from a foreign country will also be included.^[2]

The specific types of ferry operations to be included are those providing itinerant^[3], fixed route, common carrier^[4] passenger and/or vehicle roll-on, roll-off (RoRo) ferry service. Railroad car float operations are also be included within the scope of this study. ^[5] Ferry operations that are exclusively non-itinerant (e.g., "cruise-to-nowhere" services), excursion services (e.g., whale watches, casino boats, day cruises, dinner cruises, etc.), passenger only water taxi services not operating on a fixed route, LoLo (Lift-on/Lift-off) freight/auto carrier services, or long distance passenger only cruise ship services will **not** be included within the scope of this inventory.

- [1] These include political units that are an unincorporated territory of the U.S., maintain a Compact of Free Association with the U.S., or are a commonwealth associated with or in political union with the U.S. This currently includes the Marshall Islands, Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, American Samoa, and the US Minor Outlying Islands of Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Islands, Navassa Island, Palmyra Atoll, and Wake Island.
- [2] Some examples of this latter type of "international" ferry service include existing ferry operations between Seattle, Washington and Victoria, British Columbia (see http://www.victoriaclipper.com/victoria_clipper_ferry_service), service between Bar Harbor, Maine and Yarmouth, Nova Scotia (see http://www.catferry.com/), and other services.
- [3] Service between two different ferry terminal locations or ports of call. Such service need not necessarily operate on a regular schedule, but instead might be characterized as "demand-responsive." Examples might include various inland river RoRo ferry crossings that operate "on-demand" during a defined period of service each day.
- [4] Common carrier can be generally defined as "a for-hire carrier that holds itself out to serve the general public at reasonable rates and without discrimination."
- [5] Railroad car float operations typically use a tug and barge combination having two to three parallel tracks, onto which rail cars are rolled for transit across a body of water.

■ Arizona State Transit Funding: Major Features

• State transit funding for FY 2008 totaled \$11.7 million or about \$1.80 per capita.

■ Arkansas State Transit Funding: Major Features

- Total state transit funding in FY 2008 was just approximately \$4.89 million or about \$1.71 per capita (based on Arkansas 2008 Estimated Population from U.S. Bureau of Census).
- Transit funding comes from a dedicated source generated by a tax on rental cars and a corporate franchise fee.
- The funds are used both for capital match and operating assistance for urban and rural transit systems and for expanding Arkansas's 5310 capital grant program.

(Arkansas' fiscal year is from July to June.)

■ California State Transit Funding: Major Features

- Total state transit funding for FY 2008 was \$2.3 billion, translating to approximately \$60.53 in per capita funding.
- Funding for transit projects programmed in the Traffic Congestion Relief Program began in 2001. Transit projects programmed in the 2008 State Transportation Improvement Program Augmentation were adopted in April 2008.
- State funding supports the full spectrum of transit needs—capital, operations, and planning.
- The primary source of state transit funding continues to be revenues from the ¼ cent of the 7¼ percent retail sales tax flowing through the "Local Transportation Fund" established by the Transportation Development Act (TDA). Revenues are collected by the state and returned to each county according to the amount that was collected in that county (as a result, they are often characterized as "local" rather than state funds).
- State funding from gasoline and diesel sales taxes also flow to transit through the "State Transit Assistance (STA) Fund/Public Transportation Account." However, the STA fund was swept until state FY 2013 due to budget constraints. This funding source historically accounts for 15 percent to 40 percent of a transit agencies operation budget.

(California's 2007 fiscal year is July 1, 2007 to June 30, 2008.)

Colorado State Transit Funding: Major Features

- A transportation funding bill passed during the 2002 legislative session provided, for the first time in Colorado, state funding for transit-related purposes. The bill set aside at least 10 percent of general fund transportation funds generated from autorelated sales taxes. These so-called "Senate Bill 1" funds are generated only when tax revenues exceed certain thresholds. Those thresholds were exceeded for the first time in FY 2006.
- The Senate Bill 1 funds are dedicated to "strategic" projects selected by the Colorado Transportation Commission. The Commission conducted a competitive application process, limiting strategic funding to capital and planning projects and prioritizing projects that increased mobility and made strategic regional connections. A 20 percent local match is required.

(Colorado's fiscal year is July to June.)

nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Other:"
ferry systems, please check the box below. Thank you.	
X This state does not expend state funds on any ferry system	*Includes planning

■ Florida State Transit Funding: Major Features

- Total state transit funding decreased from \$174.8 million in FY 2007 to \$146.3 million in FY 2008 for a per capita cost of \$7.78.
- State funding supports the full spectrum of transit needs—capital, operations, and planning.
- The Florida Legislature created the State New Starts program, funded with general revenues, to provide up to ½ of the nonfederal share of transit new starts projects.
- By state law, a minimum of 15% of state transportation trust fund dollars must be spent for public transportation, which includes transit, rail, aviation, seaports and intermodal facilities. Transit makes up 5% of state transportation expenditures.
- Florida law allows the Department of Transportation to match FTA Section 5311(f)
 Intercity Bus Funds on a dollar for dollar basis.

(Florida's fiscal year is from July to June.)

ferry systems, please check the box below. Thank you.	
x This state does not expend state funds on any ferry system.	*Includes planning

■ Georgia State Transit Funding: Major Features

- Total state transit funding increased from \$6.0 million in FY 2007 to \$6.3 million in FY 2008 for a per capita cost of \$0.65.
- The state transit funding came from the annual state budget appropriations process.
- The state provides capital and planning funds, but no transit operating support.
- The state provides capital assistance for 15 urban and 104 rural public transit systems. In addition, the state provides planning support for 15 MPOs.
- All rural providers are local or county governments, some of whom contract with other providers for service. Georgia DOT Public Transportation Coordinators at the seven District Offices assist rural areas in service planning and capital budgeting.
- Through the Georgia Transit Association (GTA), transit agencies are currently developing proposals for statewide alternative transportation revenue sources for both urban and rural public transportation systems for operating assistance.

(Georgia's fiscal year is from July to June.)

■ Idaho State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$312,000 or \$0.21 per capita.
- State transit funds are taken entirely from Idaho Transportation Department's miscellaneous revenues. Gas tax funds are restricted to road spending by the state constitution, and the legislature has not allowed general fund monies to be appropriated for transit.
- Local matches are generally funded by property taxes or donations.

(Idaho's fiscal year is from July to June.)

■ Illinois State Transit Funding: Major Features

- Total state transit operating assistance funding in FY 2008 is \$519.3 million or \$40.25 per capita. This number does not include FY 2008 expenses for state water taxi and ferry services, which total \$794,307.50.
- IDOT provides operating assistance, including debt service on capital bonds, general operating assistance, and a fare reimbursement program from its general revenue funds. IDOT also provides operating assistance to transit systems that provide reduced fares to the elderly and people with disabilities. The amount available each year is determined through the legislative process.
- The Downstate Operating Assistance Fund provides up to 65 percent of eligible expenses for downstate transit operators outside the Metro East Area.
- The Public Transportation Fund is a \$193 million discretionary fund, which is given to Northeastern Illinois' Regional Transportation Authority (RTA), and is generally used for the Chicago Transit Authority's (CTA) operating costs. The RTA area has a minimum fare box recovery rate of 50 percent.
- Until March 2008, the State Reduced Fare Program reimbursed transit systems for revenue losses incurred by providing reduced fares to students, the elderly, and people with disabilities. After March 2008, this program excluded the elderly and some people with disabilities. (These people were then allowed to ride free.) In FY 2008, the Statewide Reduced Fare program received \$37.6 million.

Illinois State Transit Funding for Ferry Systems	
Please indicate in the boxes to the right, the TOTAL amount of STATE funds	Capital
that were expended on ferry systems for capital and/or operating expenses	Operating* \$2,935,383
during 2008. Please include all funds, even if they are already included under another program or programs reported in this survey. These state figures will	Other
allow us to show the total amount of state dollars that are being expended on the	TOTAL \$2,935,383
nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Other:"
ferry systems, please check the box below. Thank you.	
This state does not expend state funds on any ferry system.	*Includes planning

■ Indiana State Transit Funding: Major Features

- State transit funding from the Public Mass Transportation Fund, Commuter Rail Service Fund, and Electric Rail Service Fund was \$55.5 million. This translates into a per capita of state funding of \$9.12.
- Operating and capital funds for transit are administered through the public mass transportation fund, commuter rail service funds, and electric rail service fund.
- The Indiana Department of Transportation administers the section 5303, 5310, 5311, 5313, 5316, and 5317 grant programs. Indiana has received over \$19 million in grant awards from these programs in FY 2008.
- Regional transportation authorities have been established in northwest and central Indiana. The Regional Development Authority, representing Lake and Porter counties, includes a Regional Bus Authority charged with developing regional bus service. In central Indiana, the Central Indiana Regional Transportation Authority has been created for the Indianapolis metro area encompassing nine counties.

■ Iowa State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$13.3 million or about \$4.54 per capita.
- The Iowa Code allocates an amount equal to four percent of the "registration fee" charged on the sale of motor vehicles and accessory equipment to the State Transit Assistance fund.
- Of the total amount the State Transit Assistance fund in any given year, \$300,000 are initially reserved for "special projects" to enhance the transit program, while the rest of the funds are distributed on the basis of a performance-based formula to the state's 19 urban and 16 regional transit systems to be used at the discretion of the local transit policy board for projects supporting public transit.
- Special projects are generally statewide in scope and include such items as coordination projects with human service agencies, a statewide transit awareness campaign, a fellowship program for transit systems in communities with populations greater than 50,000 (similar to what is made available to rural systems using the FTA Rural Transit Assistance Program [RTAP]), and projects for the introduction of advanced technologies. Of the set-aside special projects, any part not needed for such purposes can be distributed to the transit systems via the formula.
- Iowa's distribution formula makes an initial split in funding between the state's urban transit systems and the multi-county regional transit systems. This is based on total revenue miles provided by each peer group. Then within each peer group, each system receives an allocation of state transit assistance, which is based 50 percent on the amount of locally determined income generated in the previous year in comparison with peers, 25 percent on ridership efficiencies in comparison with peers, and 25 percent on revenue miles efficiencies in comparison with peers. Formula funds are distributed to transit systems monthly upon receipt by DOT.
- An additional \$2.2 million in capital assistance for transit was appropriated, to come
 from proceeds of the state's tax on gambling casinos. Eligible projects may involve
 constructing new facilities for support of public transit or improving existing transit
 facilities, but must each involve a significant vertical infrastructure aspect. Projects
 are selected through a competitive application process.

■ Kansas State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$6.0 million or \$2.17 per capita. The state has programmed \$6.0 million per fiscal year through FY 2010.
- The source of the funds is the state Highway Fund, which is divided between rural (41 percent) and urban (59 percent) transit operators and is used for operating and capital needs.
- The selection process for funding begins by needs requests, which are compiled by various transit operators. These needs requests are then screened by 15 coordinated transit districts (CTDs), which view the requests in light of district-wide needs. The recommendations made by the CTDs are then forwarded to the state DOT transit section, which notifies the final fund recipients.

Louisiana State Transit Funding for Ferry Systems			
Please indicate in the boxes to the right, the TOTAL amount of STATE funds	Capital	\$2,767,000	
that were expended on ferry systems for capital and/or operating expenses	Operating*	\$6,672,233	
during 2008. Please include all funds, even if they are already included under another program or programs reported in this survey. These state figures will	Other	\$2,066,771	
allow us to show the total amount of state dollars that are being expended on the	TOTAL	\$11,506,004	
nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Othe	r:"	
ferry systems, please check the box below. Thank you.			
This state does not expend state funds on any ferry system.	*Includes	planning	

■ Maine State Transit Funding: Major Features

- Total state transit operating funding in FY 2008 was \$527,654 or \$0.41 per capita.
- The constitutional barrier to using state highway tax dollars for nonhighway purposes limits funding for transit. However, the Transit Bonus Program (which is capped at 1 percent of the State Highway Tax), gives towns a bonus in their local roads accounts if they increase their contributions to transit.

(Maine's fiscal year is from July to June.)

ferry systems, please check the box below. Thank you.			
This state does not expend state funds on any ferry system.	*Includes	planning	

Maryland State Transit Funding: Major Features

- Total state transit spending was \$844.4 million in State Fiscal Year 2008. This equates to \$151 in per citizen expenditures.
- Funding to support all state-operated transit expenditures flows through the Transportation Trust Fund. The state legislature allocates funding to the administration based on budget requests.
- For the combined bus, Metro subway, and light rail systems in Baltimore, the Maryland Transit Administration (MTA) is required by statute to recover 35 percent of its operating expense through fares. This is a recently enacted change from prior years, which required at least 40 percent farebox recovery for MTA service.

(Maryland State Fiscal Year 2008 began on July 1, 2007 and ended on June 30, 2008.)

ferry systems, please check the box below. Thank you.	**This number ap	pplies to state transportati	ion bond funds	expended for water
	transportation as	s well as MBTA capital ex	penditures.	
	***This number a	applies to ferry services to	Boston provide	d by the MBTA.
This state does not expend state funds on any ferry system.	*Includes	planning		

■ Michigan State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$191.89 million or \$19.18 per capita.
- The largest two programs are operating assistance and capital match.
- State law requires the Comprehensive Transportation Fund to provide operating assistance as a percentage of eligible expenses and establishes maximum rates of 50 percent of eligible operating expenses for urbanized areas over 100,000 population and up to 60 percent for nonurbanized areas and urbanized areas under 100,000 population. In FY 2008, the Comprehensive Transportation Fund appropriation supported operating assistance levels of 31.5 percent and 37.2 percent.
- State law requires the Comprehensive Transportation Fund to provide two-thirds
 of the required local match for Federal transit grants awarded to eligible agencies.
 MDOT's goal has been able to provide the entire local match, with a combination
 of annual appropriations, bond proceeds, and toll revenue credits. Bond proceeds
 and toll revenue credits are not included in Michigan's report.
- Michigan provides some level of public transportation in all 83 counties.
- A total of 54 of 78 public transit agencies are locally supported by property tax millages, with the remainder supported by local general funds.
- 78 regular service transit agencies provided approximately 100.4 million rides in FY 2008, a 7.3 percent increase over 2007.
- The Rideshare Program provides limited staff support for nine local Rideshare
 Offices that organize, demonstrate, and promote ridesharing activities. Seven of
 the offices receive Federal funds to support the program while two of the offices
 operate on local funding only. In addition, the MichiVan Program provides fleet
 management to 300 commuter vanpool groups.
- Two public passenger ferry services receive state assistance one in eastern Upper Peninsula, which carry 479,758 vehicles and 778,326 passengers and the other providing service from Charlevoix to Beaver Island, carry 5,634 vehicles and 36,868 passengers.
- The state provides operating assistance for five intercity bus routes that carry 75,067 passengers in FY 2008. This is an 11.0 percent decrease from the previous year.
- The state's three passenger rail corridors carry 720,647 passengers in FY 2008.

- This is a 5.7 percent increase from the previous year. Two of the three corridors receive state operating assistance.
- Michigan provides safety oversight for 225 motor bus (charter and intercity) and about 743 limousine carriers. A total of 2,470 motor buses and 3,140 limousines either received an annual safety inspection or were safety certified by the State.

(Michigan's fiscal year is from October to September.)

- (1) The funding sources shown are in proportion to the amount each source contributes to the Comprehensive Transportation Fund (CTF). The CTF supports all the programs shown in these spreadsheets.
- (2) All revenue to the CTF is dedicated to public transportation by statute.
- (3) The CTF receives up to 10% of the Michigan Transportation Fund (MTF) revenue after certain deductions. This is effectively, slightly over 8% of the MTF. MTF revenue sources include various fuel taxes, vehicle registration fees and other miscellaneous revenues. The vehicle registration fees comprised 52.30% of the overall MTF revenues in FY2008. The numbers lists 52.30% of the MTF revenues that went unto the CTF in FY2008 as vehicle registration fees; the remaining 47.70% was fuel tax.
- (4) Some of the programs shown are also supported by CTF bond proceeds which are in addition to the amounts shown and not subject to the annual appropriations process. Since bond debt service is paid from the CTF, bond proceeds are not a revenue source, but a funding tool and are not reported here as a revenue source.

nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Othe	r:"	
ferry systems, please check the box below. Thank you.			
This state does not expend state funds on any ferry system	*Includes	planning	

■ Minnesota State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$339.9 million or \$65.28 per capita.
- The Minnesota Department of Transportation receives and distributes funding for public transit systems outside the seven-county metropolitan area. The Metropolitan Council (the Metropolitan Planning Organization) receives and distributes funding for the Minneapolis-St. Paul metro area.
- Minnesota's 2007 Legislature statutorily dedicated 40 percent of annual Motor Vehicle Sales Tax (MVST) collections for transit with a five-year phase in from 2008 to 2012 to reach the full amount. In FY 2012, 36 percent of this funding is dedicated for Twin Cities Metropolitan Area transit operations and 4 percent for Greater Minnesota transit operations.
- A ferry service was operated across the Mississippi River for a two-week period at Winona, Minnesota, to mitigate the emergency closing of a bridge for closer inspection. Alternate routes for motor vehicles entailed an extra 35-mile trip.

(Minnesota's fiscal year is from July to June.)

ferry systems, please check the box below. Thank you.			
x This state does not expend state funds on any ferry system.	*Includes	planning	

■ Missouri State Transit Funding: Major Features

- Total state transit funding was \$6.9 million in FY 2008, or about \$1.19 per capita.
- Mostly general revenue funds are used for transit, as the Missouri constitution
 prohibits state gas tax money from being used for anything other than roads. In
 2008, some State Transportation Fund moneys (derived primarily from a portion of
 registration fees) were used to lower the prior year's level of general revenue
 funding to transit.
- Seven public urban transit providers and 27 rural transit providers receive state transit operating assistance funds; 212 nonprofit organizations receive Missouri Elderly and Handicapped Transportation Assistance Program (MEHTAP) funds.
- For FY 2008, state operating assistance funded about one percent of the operations budget of large urban systems, four percent for small urban systems, and four percent of rural systems.
- For FY 2008, MEHTAP offset nine percent of the total cost of trips provided.

(Missouri's fiscal year is from July to June.)

■ Montana State Transit Funding: Major Features

- Total state transit funding was \$414,820 in FY 2008, or approximately \$0.43 per capita.
- Although the TransADE funding amount is determined annually, the gas tax contribution to transit is fixed.

(Montana's fiscal year is from July to June.)

■ Nebraska State Transit Funding: Major Features

- Total state transit funding was \$2.9 million for FY 2008 or \$1.63 per capita.
- State operating support is provided on a deficit basis, limited to a cap determined by a formula.
- State funds are distributed to both rural and urban transit systems.
- The Nebraska Department of Roads, through the Rail and Public Transportation Division, administers the Rural Transit Assistance Program (RTAP) on a statewide basis.

(Nebraska's fiscal year is from July to June.)

■ Nevada State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$0 for 5309 and 5310 funds. These funds do not include NDOT staff administration.
- Nevada also receives federal monies for the Rural Transit Assistance Program (RTAP).
- Nevada was awarded a 5309 grant for the Urbanized Area Capital Purchases Program. These funds are distributed through the state prioritization process and do not include the state match.

(Nevada's fiscal year is from July to June.)

■ New Hampshire State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$4,474,250 or approximately \$3.40 per capita.
- These funds consisted of general funds (transit operating assistance), capital budget (bond) funds (match for transit capital grants), and highway and general funds (match for commuter bus acquisition and bus terminal/park and ride construction).

(New Hampshire's fiscal year is from July to June.)

■ New Mexico State Transit Funding: Major Features

- Total state transit funding for FY 2008 is \$9,296,786.
- The 2008 legislature provided \$2.7 million for the Park-and-Ride Program and \$6.6 million for the Rail Runner Express Commuter Rail program.
- The 2004 legislative session passed a regional transportation district (RTD) bill with taxing authority. This bill provides for dedicated state transit funds from the State Road Fund to establish the transit districts. Two of the districts passed regional transit gross receipts tax ballot measures in seven counties in November 2008. The funds started to be generated in July 2009.

(New Mexico's fiscal year is July to June.)

■ New York State Transit Funding: Major Features

- Provides record level funding of \$3.015 billion in FY 2008; or approximately \$155.93 per capita.
- Operating assistance is administered through the Statewide Mass Transportation
 Operating Assistance (STOA) program. The program is funded through the general
 fund, the Mass Transportation Operating Assistance (MTOA) fund, and the
 Dedicated Mass Transportation Trust fund (DMTTF).
- MTOA is the dedicated tax portion of the STOA.
- The Metropolitan Transportation Authority (MTA), Staten Island Ferry, New York
 City DOT, the four upstate regional transportation authorities, and Westchester,
 Nassau, and Suffolk Counties receive STOA funding through a specific line item in
 the state budget. The remaining bus systems receive STOA through an incentivebased passenger and vehicle mile formula.
- The state provides 50 percent of the nonfederal share of the Safe, Accountable, Flexible, Efficient Transportation Equity Act (SAFETEA-LU) Federally funded transit capital projects for systems other than the MTA (not to exceed 10 percent of the project cost). As part of a multiyear transportation program for systems other than the MTA, the state also provides state funds to address priority capital needs that exceed available federal resources.
- In addition, pursuant to the 2005 Rebuild and Renew New York Transportation Bond Act, the state provides \$ 10.0 million annually (for systems other than the MTA) through state FY 2009–2010 to address the incremental cost associated with mainstreaming hybrid-electric buses into public fleets as well as continuing to support the implementation of Compressed Natural Gas (CNG) for those systems that have previously committed to and invested in facility/infrastructure modifications required to support CNG.
- MTA capital requirements are addressed from the state contribution to the MTA multiyear capital program.

(New York's fiscal year is from April to March.)

New York State Transit Funding for Ferry Systems				
Please indicate in the boxes to the right, the TOTAL amount of STATE funds	Capital	\$4,000,000		
that were expended on ferry systems for capital and/or operating expenses	Operating*	\$28,485,280		
during 2008. Please include all funds, even if they are already included under another program or programs reported in this survey. These state figures will	Other			
allow us to show the total amount of state dollars that are being expended on the	TOTAL			
nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Othe	er:"		
ferry systems, please check the box below. Thank you.	Operating assistance for the Staten Island Ferry			
	Estimated capit	al expenditures for ferry-re	lated activities.	
This state does not expend state funds on any ferry system.	*Includes	planning		

■ North Carolina State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$73.4 million or about \$8.37 per capita.
- Reduced potential 485 tons of nitrogen oxide (NOx) emissions for work trips through transportation demand activities.
- The first light rail system began operations in Charlotte. An additional \$8.9 million in state funds were authorized to purchase additional rail cars due to service demand, resulting in NCDOT funding for construction of the project to 25 percent or \$115.6 million.
- Funding to match New Start projects reduced until an eligible project is ready to move through the federal process.
- Maintained second year increase by \$5 million for state operating assistance to counties for elderly, disabled, employment, and rural general public transportation needs.
- A fund for transportation for international trade shows became a separate transit program in FY08 and was created by reducing the Statewide Transit Development Program by \$1.2 million.

(North Carolina's fiscal year is from July to June.)

nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Other:"	
ferry systems, please check the box below. Thank you.		
This state does not expend state funds on any ferry system.	*Includes planning	

■ North Dakota State Transit Funding: Major Features

- Total State Transit Funding in FY 2008 was 2.9 million or \$4.53 per capita.
- State funding covers about 21.5 percent of all Federal and state transit funding in North Dakota.
- State aid for public transit funds in North Dakota are not restricted and can be used by transit project recipients for all transit costs, including operating costs, capital costs, transit planning costs, and the costs of matching Federal transit funds.

(North Dakota's fiscal year is from July to June.)

■ Ohio State Transit Funding: Major Features

- Although the FY 2008 state transit budget began at \$16.45 million (approximately the same as FY 2007), funds were cut six months before the end of the fiscal year.
- The final FY 2008 transit budget was \$15.8 million.
- In FY 2008, ODOT flexed \$22.9 million in highway funds for transit capital projects such as the construction of transit centers, Park-and-Ride lots, and the purchase of replacement vehicles.
- A Bus Replacement Program was included in the FY 2008 budget bill. The Program was funded with \$5 million of CMAQ (a portion of the \$22.9 million transferred highway funds listed above).
- The formula used to allocate funding to the Rural Transit Program recipients incorporates: ridership (50 percent), revenue miles of service (25 percent), and level of local support (25 percent). A 0.5 percent allocation reduction is imposed for non-compliance with requirements and timeliness of.
- The formula used to allocate funding to the Urban Transit Program recipients incorporates: ridership (20 percent), revenue miles (20 percent), farebox revenue (10 percent), cost per hour (20 percent), passengers per mile (20 percent), farebox recovery (10 percent).
- Ohio has another source of funding for major transit projects the Transportation Review Advisory Committee (TRAC). Appointed by the governor and the Ohio General Assembly, this program annually funds major new construction projects, including transit. Examples of projects funded are \$75M for a BRT project and several downtown transit centers.

(Ohio's fiscal year is July to June.)

nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Other:"
ferry systems, please check the box below. Thank you.	
X This state does not expend state funds on any ferry system	*Includes planning

Oklahoma State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$5.75 million or \$1.59 per capita. All state transit funds were appropriated to the Public Transit Revolving Fund (PTRF).
- Funding sources included \$850,000 from the state fuel tax that is dedicated to the PTRF every year and \$1.9 million in funds appropriated by the legislature.
- Five percent of funds appropriated to the PTRF are set aside for new starts.
- By state statute, Oklahoma County and Tulsa County transit services receive 20 percent each from the PTRF annually.
- The balance of money appropriated to the PTRF is distributed to all other public transit providers using a pro rata share of the vehicle revenue miles.

(Oklahoma's fiscal year is from July to June.)

Oregon State Transit Funding: Major Features

- Total state transit funding decreased in FY 2008 from \$74.1 to \$35.8 million.
- The major change was the exclusion of a capital construction commuter rail project that was completed in 2007.
- Most state funding is allocated to "special" programs, including elderly and disabled, passenger rail, and new fixed-guideway projects.
- State public transit expenditures per capita decreased from \$10.60 to \$9.13 per person.
- Most state revenues used for public transit programs or projects in Oregon come from sources other than the state general fund.
- Of the state tax on cigarettes, 89.65 percent is allocated to the state general fund. Of that amount, 3.45 percent per pack is dedicated to the Special Transportation Fund for senior and disabled transportation. Cigarette tax revenue has been gradually declining.
- Of the revenues allocated from sales of Identification Cards, these revenues have decreased partly as a result of reduced sales related to implementation of Federal Real ID legislation.
- The in-lieu-of-payroll tax support applies to mass transit districts and transportation districts. Amounts provided through this program may not exceed the amount the district receives from its own taxes.
- Oregon legislature did not add new transit program resources during 2008. Oregon did initiate an annual legislative session starting in 2008.

(Oregon's fiscal year is from July to June.)

■ Pennsylvania State Transit Funding: Major Features

- New state public transportation authorizing legislation, Act 44, was enacted on July 18, 2007, which significantly changed the state's methodology for determining state grants to public transportation systems. This new legislation increased state operating assistance by approximately 45 percent and overall state funding by over 35 percent compared to state funding in FY 2006–2007.
- This new state funding established the following new state programs: Section 1513 formula operating assistance, Section 1514 discretionary trust funded asset improvement assistance, Section 1517 formula capital improvement assistance, and Section 1516 discretionary programs of statewide significance. Programs of statewide significance include the following state programs: Persons With Disabilities Program, Welfare to Work Program, Community Transportation Capital and Service Stabilization Programs, Intercity Rail and Bus Programs, and Rail Safety Oversight Program.
- To fund these new programs Act 44 authorized a new state trust fund using tolls realized on the existing Pennsylvania Turnpike and anticipated new tolling on Interstate 80. The tolling of Interstate 80 has not yet been approved by FHWA. In FY 2007–2008, this new trust fund generated \$250 million for Section 1513 state operating assistance and \$50 million for Section 1514 state capital asset improvement assistance.
- In addition to the forenamed new trust fund, Act 44 authorized the transfer of 4.4 percent of state sales tax revenue to be used for public transportation. This annual hold harmless transfer provision was established to provide the previous level of annual state funding obtained from a variety of prior state funding sources such as the general fund.
- Act 44 adequately addressed the gap in operating assistance but did not fully address capital needs.

(Pennsylvania's fiscal year is from July to June.)

This state does not expend state funds on any ferry system.	*Includes planning

■ South Carolina State Transit Funding: Major Features

• The majority of the state transit funding budget — \$6.4 million in FY 2008 — is used for matching FTA funds that are awarded in South Carolina.

(South Carolina's fiscal year is from July 1 to June 30.)

South Dakota State Transit Funding for Ferry Systems	
Please indicate in the boxes to the right, the TOTAL amount of STATE funds	Capital
that were expended on ferry systems for capital and/or operating expenses	Operating* \$
during 2008. Please include all funds, even if they are already included under another program or programs reported in this survey. These state figures will	Other
allow us to show the total amount of state dollars that are being expended on the	TOTAL
nation's ferry systems on a yearly basis. If your state does not expend funds on	E 1: 100 H
ferry systems, please check the box below. Thank you.	
X This state does not expend state funds on any ferry system	n. *Includes planning

■ Tennessee State Transit Funding: Major Features

- Eighteen (18) urban and ten (10) rural systems provide public transportation services in all of Tennessee's ninety-five (95) counties. These public transit agencies operated a total which exceeded 1,400 buses, trolleys, and vans to serve the mobility needs of Tennesseans and alternative means of transportation.
- TDOT transit sub-recipients received a one-time award of \$5,000,000 state funding to supplement vehicle and other capital items replacement.
- TDOT is currently developing an update of its Long-Range, Multi-Modal Transportation Plan which will include Multimodalism as a significant element.
- TDOT's Division of Multimodal Transportation Resources is currently managing a
 demonstration pilot project which begin in FY 2008 utilizing 5311 (f) Intercity Bus
 Funding. Seven sub-recipients have been chosen to participate in this effort. Both
 private and public contracts for services have been awarded. The program is in its
 early stages but indications are that ridership is increasing steadily.
- TDOT's Division of Multimodal Transportation Resources is currently designing and developing a Project Assignment Management System (PAMS) to track the progress of project spending and contract management.

(Tennessee's fiscal year is from July to June and the data included in the representative tables and comments are for the period of July 1, 2007 through June, 30, 2008)

nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Othe	er:"	
ferry systems, please check the box below. Thank you.			
This state does not expend state funds on any ferry system	*Includes	planning	

■ Texas State Transit Funding: Major Features

- Total state transit funding levels remained at \$57.5 million for the FY 2008–2009 biennium; the same level of funding provided in the FY 2006–2007 biennium.
- Of the state funds appropriated for transit, 100 percent was allocated by formula. Of the total, 65 percent was allocated to rural and 35 percent rural to small urban. Of the 65 percent allocated to rural; 80 percent is distributed based on need and 20 percent based on performance. The rural distribution changes to 65/35 percent in FY 2010. Of the 35 percent allocated to small urban; 65 percent is distributed based on need and 35 percent based on performance. The small urban distribution changes to 50/50 percent in FY 2010.
- Generally speaking, state funds are available to Section 5307 recipients that have populations between 50,000 and 200,000. Certain 5307 recipients who have more than 200,000 in population, but do not have a transit tax, may also be eligible for state assistance. Although most state funding does not require any matching funds, some 5307 systems, because of their locations in areas served by a transit authority, must match state funds with local funds.
- Effective FY 2005 Texas changed the formula for allocating state funds. The new formula considers demographic and performance factors.

(Texas' fiscal year is September to August.)

This state does not expend state funds on any ferry system.	*Includes planning

■ Utah State Transit Funding: Major Features

• Utah currently does not provide any state transit funding. All Federal matches are provided with local dollars or a percent of local option sales tax revenues.

(Utah's fiscal year is from July to June.)

■ Vermont State Transit Funding: Major Features

- State funds in the transit operating budget in FY 2008 totaled \$5,899,044 or \$8.64 per capita.
- State funds are available to Section 5307 recipients that have populations between 50,000 and 200,000 and Section 5311 non-urbanized recipients. There are currently one 5307 and 10 5311 recipients in Vermont. One of the 5311 recipients is also funded by the state of New Hampshire.
- Vermont provides 50 percent of the local match on capital acquisitions.
- By statute, Vermont has a funding formula for all operating grants.

(Vermont's fiscal year is from July to June.)

■ Virginia State Transit Funding: Major Features

- Total state transit funding for FY 2008 was \$229 million for a per capita figure of \$29.47.
- The Commonwealth Transportation Trust Fund provides most state funding for transit in Virginia. Various taxes and fees, including general sales tax, gasoline, and motor vehicle taxes are used to support the fund. About 14.7 percent of the fund was allocated to transit in FY 2008.
- Nine localities in the Washington, D.C., metropolitan area are supported by the regional motor fuels tax. Two transportation commissions administer the programs supported by this tax.

(Virginia's fiscal year is July to June.)

Virginia State Transit Funding for Ferry Systems	
Please indicate in the boxes to the right, the TOTAL amount of STATE funds that were expended on ferry systems for capital and/or operating expenses during 2008. Please include all funds, even if they are already included under another program or programs reported in this survey. These state figures will allow us to show the total amount of state dollars that are being expended on the nation's ferry systems on a yearly basis. If your state does not expend funds on	Capital Operating* Other TOTAL Explain "Other:"
ferry systems, please check the box below. Thank you.	
x This state does not expend state funds on any ferry system.	*Includes planning

Definition of Fe	rry System					

■ West Virginia State Transit Funding: Major Features

- Total state transit funding in FY 2008 was \$3.0 million or \$1.67 per capita.
- General revenue funds provide the state's share of transit funding and are used only to match FTA grants.
- No state funds for operating assistance are provided to urban areas.
- Only statewide Section 5309 grants receive state matching funds. Only current 5311 and 5307 recipients are eligible for this funding and must contribute local matching funds.
- General revenue funds provide the match for the Section 5305 program, and no state funds are provided to administer any FTA grant.

(West Virginia's fiscal year is from July to June.)

West Virginia State Transit Funding for Ferry Systems	
Please indicate in the boxes to the right, the TOTAL amount of STATE funds	Capital
that were expended on ferry systems for capital and/or operating expenses	Operating*
during 2008. Please include all funds, even if they are already included under another program or programs reported in this survey. These state figures will	Other
allow us to show the total amount of state dollars that are being expended on the	TOTAL
nation's ferry systems on a yearly basis. If your state does not expend funds on	Explain "Other:"
ferry systems, please check the box below. Thank you.	
X This state does not expend state funds on any ferry system.	*Includes planning

■ Wisconsin State Transit Funding: Major Features

- Total state transit funding in FY 2008 was just over \$125.1 million, for a per capita funding level of about \$22.14.
- State funding covers about 35 percent of operating costs for public transit systems statewide, and about 40 percent of operating costs for specialized elderly and disabled systems.
- State funding supports the transportation employment and mobility program, which emphasizes transportation services connecting low-income individuals with jobs and encourages innovative alternatives to driving alone.

(Wisconsin's fiscal year is from July to June.)

■ Wyoming State Transit Funding: Major Features

- Total state transit funding in FY 2008 was just under \$1.5 million.
- Gas tax revenues are restricted to highway use only. Transit funds can only come from other portions of the state highway fund, or State General Funds.
- Other funding sources for Wyoming public transit are local match funds and FTA Sections 5311, 5311i, the Rural Transit Assistance Program (RTAP), 5304, 5310, 5303, 5307, and 5311(f), Intercity Bus.

(WyDOT's fiscal year is from October to September.)
